

## What's new at ENSEA?

The international students can join our English-taught international class with an academic training **entirely in English!**

### International English-taught tracks

#### 3° year ENSEA (first semester)

Network and Telecommunication option	Biomedical engineering option
Digital communication	Data acquisition
Wireless Communication	Medical instrumentation
Networks	Medical image processing
Network architecture and security	Signal and image processing
Project	Project
Management & Languages	Management & Languages

#### 2° year ENSEA

First semester	Second semester
Signal processing (maj.)	Signal processing (maj.)
Computer Science (maj.)	Electronic engineering (min.)
Automatics and control (min.)	Elective subject : Drones, Microelectronics, IoT, AI & Big Data, Virtual Images & Reality
Electronic engineering (min.)	Business Management & Project
Business Management & Project	Languages
Languages	Assistant engineer internship

Both Exchange students and Double-Degree mobility students can join the English-taught study path.

All our academic offer on our website: <https://www.ensea.fr/en/exchange-degree-programs-698>

## Save the date !

### Spring Semester

Nomination deadline:  
October 15<sup>th</sup>

Application deadline:  
October 30<sup>th</sup>

### Fall Semester

Nomination deadline : June  
1st

Application Deadline June  
15th

## Feedback from our students

**Junior from Colombia:** “The experience has been incredible since I got here, everything has been great, not only with French students but also with the international students.”

**Ricardo from Brazil :**

“My experience here at ENSEA has been very nice because I had the opportunity of working with many people from different nations and different cultures, I've been learning a lot and I also had the opportunity to improve my French all those time.”

**Juan Sebastian from Colombia:**

“My experience, here, at ENSEA has been really good. I've been working in the QUARTZ laboratory. I've been in a project and the teachers have helped me, they have always been paying attention to me.”

**Jingqiu from China:**

FIP is the best association in the world!

## Focus on a partner

### Tallinn University of Technology

**TAL  
TECH**

With the occasion of Campus France’s Congress for Incoming mobility promotion at Aix-en-Provence, in May 2022, our IRO team had the opportunity to meet with Prof. Sadok Ben Yahia, teacher and researcher at TalTech, the main university of technology in Estonia. Before long, we found interesting collaboration opportunities in the IA, data science, image processing, embedded systems and biomedical engineering fields, for academic exchange as well as research cooperation. A new Erasmus Exchange agreement has been signed allowing all those possibilities and two ENSEA students went to beautiful Tallinn for a summer internship from June to August 2022 in Prof. Ben Yahia’s laboratory.

We are now hoping to inaugurate academic exchanges in brief and, with that expectation, we are glad and honored to receive Prof. Ben Yahia during our International Mobility Fair at ENSEA on November the 17th for a presentation of his institution and research.
